## WORKSHOP FOR EDUCATORS

*Shake It Up with Storytelling*

**Tuesday, April 4 / 4-7pm**

**FREE**

Storytelling is a powerful educational tool for developing children's language skills. For this special teacher workshop offered in conjunction with our annual Celebration of Storytelling, storytellers Jim Rohe and Gerald Fierst work together to present a fun and informative session that is sure to shake up your storytelling routine. Educators practice a variety of techniques for making storytelling more engaging and rich for young learners, while learning a story that they can take back to the classroom and present to their students. The use of storytelling in the classroom stimulates your students' ability to sequence, predict, and comprehend.

Participants receive three professional credit development hours. Light dinner is included. The workshop is free but seating is limited and reservations are required.
