Please only enroll your child in one session.**

DIFFERENT STROKES (Week 1 AM): Unlock the secrets of painting in this introductory class. Students will experiment with a variety of painting styles and media, while learning about color mixing, blending, composition, and other keys to creating a beautiful painting from the first brushstroke to the last.

ABSTRACT ART (Week 1 PM): For over a century, abstract artists have pushed the boundaries of art and helped us see our world in new ways. Students in this class will learn about different styles of abstraction and how it has developed over the years, while creating their own works influenced by famous abstract artists.

SHADOW AND LINE: SECRETS OF DRAWING (Week 2 AM): Discover the possibilities of drawing through the wonderment of shadows and line. Students learn to draw by sketching works of art in the museum’s galleries and from observational drawing done in the classroom, while exploring different drawing materials.

THE FOUR SEASONS (Week 2 PM): Travel through the four seasons in just one week! Each day, students will be inspired by a different season through the colors, shapes, and symbols they associate with that time of the year, building a large, collaborative wall installation that combines paint, collage, and sculpture, while also creating individual works.

PRINTMAKING (Week 2 PM): Our world is filled with printed material everywhere you look, from your cereal box to the posters on your wall. This class will introduce students to the art of printmaking, from start to finish, and how it is used for both artistic and everyday purposes.

THE ART OF PORTRAITURE (Week 3 AM): In this class, students will explore the art of portraiture in a variety of styles and media, with an emphasis on self-portraits.
